

CHRISTIAN IN JAIL FOR EMBEZZLING.

Charged by Thos. H. Browne With Taking Large Sums of Money

TO ESTABLISH A SCHOOL.

Project Was to Erect an Industrial School for Colored Men in Greenwood—Dawson People Were Liberal Contributors to the Fund.

UNIONTOWN, April 1.—Rev. R. Wallace Christian, who operated about Connellsville in jail charged with embezzling money in carrying out a project to erect an industrial school for colored men in Greenwood, is alleged to have taken \$2,500 although the amount is not specifically stated in the information filed today in court by Thos. H. Browne of Vanderbolt and brought to jail by Constable John Woods.

The information charges that Christian, who represented himself as an agent for the American Industrial Correspondence Association, embezzled money in amounts varying from \$5 to \$500 for the purpose of erecting a school for the education of colored men.

Christian arrived in Connellsville in October, 1907, and immediately commenced a campaign to raise funds for the erection of a large school in Greenwood. He had plans drawn for the building and then conducted a huge campaign to raise money for the school. Many of the colored people who ministers told him their aid and addressed the meetings. A number of prominent Fayette county men several from Uniontown also aided and large sums were collected at all the services.

Rumors floated about that Christian was not then as straight as he might have been, but these were disregarded and Christian continued to raise money for his project. After the camp meeting services he stated that a lot had been made and that the project would be pushed to completion. He also stated that he had heard of some work done in the past and that since that time it is claimed he left a number of unpaid bills behind. Edward Jones of New Haven recently made information against him for absconding from a bond bill.

That Christian was active in getting funds is shown by the fact of contributions being made with the information they are:

Thos. H. Browne	100
Henry Coalman	100
Charles Evans	100
Sarah B. Brown	100
A. J. Cochran	100
Harry McDowell	100
John E. T. Jones	100
Dr. Henry Bell	100
S. J. McFarland	100
John T. Hill	100
George Swartz	100
Edward Jones	100
Mrs. Lewis Jones	100

The information concludes with "and others" and it is said that the balance of the contributions will bring the total amount to at least \$2,500, and perhaps when all are heard from a great deal more. Christian is in jail. No time has been set for a hearing.

Ulisses Grant Savage, who was prosecuted for absconding from a bond bill by Charles E. Fetter of the Uniontown hotel was brought back to Uniontown on a process. The action was probably the result of Savage's failure to pay the cost of some cases he brought against the board bill suit.

Thomas Browne was appointed as tax collector of Vanderbolt borough to succeed Joseph Meade. The latter was elected at the February election but resigned.

The position of Road Supervisor in Henry Clay township is not one that is eagerly sought and there is much difficulty in securing men to fill the office. Judge Umbel today appointed Andrew Chase, to succeed Marcello Burnworth, who resigned. Chairman Conaway another member of the Board has also resigned and Orville Osler, who was the remaining member on the Board asked for Chase's appointment. He will later ask for an appointment of another member. Just as soon as he can find some one to take the position and then resign himself. The pay for the position is said to be very small and the work is large in proportion.

James Henderson, Ash Junk Alov and Hart, John B. Senior, John A. Hankins, L. C. Waggoner and George Banne, were appointed a board of viewers to view the property of Isaac Pierson and assess damages against the Pennsylvania railroad for entering upon the property and laying tracks. It is located in Redstone township. A judgment was secured on the basis of defense was filed and no defense offered was the case was called for trial this morning.

John Mickle's Funeral.

The remains of John Mickle of Vanderbolt will be taken to Uniontown today to the chapel of J. Harry Johnston from which place the funeral will take place Thursday morning at 10 o'clock. Interment will be made in Oak Grove cemetery.

GAS WELLS ARE MENACE TO MINERS.

Old Holes Penetrating Abandoned Workings May Be
Pouring Gas In Mine.

FIGHT ON IN GREENE COUNTY

Dilworth Company Enjoins Drillers
For Boring Into Its Slope at Rice's
Landing—To Be Taken Up When
Mine Laws Are Revised

The chartering of both old and new gas wells throughout the bituminous coal fields may be one of the demands made of the State by coal operators in connection with the new proposals for mining legislation to guard against disasters in the Pittsburgh and Connellsville regions.

The question of the danger involved from the presence of abandoned wells, improperly plugged, uncharted and lost years ago, cut through the heart of a big mine, has been raised by the operators as the result of an accident in Greene county and investigations are now being made in connection with a number of mines in the local fields. Attention has been called to the fact that four or five abandoned "gasers" are said to have run through abandoned sections of the Dilworth coal mine at Rice's Landing, where last December's disaster took place.

The incident in Greene county that has attracted the attention of the coal men is the fight between the Dilworth Coal Company of Pittsburgh and the Ten Mile Gas Company of Waynesburg, in which the coal company has secured a temporary injunction stopping the drilling on a well which cuts through the abandoned workings of the Rice's Landing mine of the Dilworth company.

When the State mining inspectors discovered the company was drilling through an abandoned working, situated between the point of the mine now being worked and the mouth of the slope they ordered the coal company to proceed against the drillers. The effort to make the injunction permanent is still pending.

The coal company claims the setting of the roots of the abandoned workings through which the gas men wish to drill may cause the casing of the well to buckle or break, filling the mine with gas. The Dilworths of Rice's Landing well where the Ten Mile company could safely drill with out penetrating the mine, but the gas concern drillers refused to relocate.

By spring gas in this abandoned working, it is claimed by the Dilworth company, would endanger the lives of 400 men working further back in connection with this incident, Pittsburgh mining authorities yesterday called attention to the fact that many of the Dilworth Coal Company's workings are now no more than starting now, and we have no protection against the slightest drilling except by going in a court and on joining him.

WHY PAY HIGH PRICES?

There is a class of men who have no confidence in their own judgement. They are good so long as a fancy price is demanded for it. Such people are known to us as "easy marks." We are content to leave the "easy marks" to the tailor shops, where they belong. But we want every man who is particular about workmanship of his clothes, and who likes to get full value for every dollar he gets, to get acquainted with this establishment. Our prices range from \$15.00 to \$30.00. Before it is completed, each suit will be taken by a first-class up-to-date cutter. Before the suit is delivered to you, it is submitted to the critical inspection of our expert master tailor. The suit is pressed and kept in repair for one year free of charge.

They'll believe anything those who have dealt with antiquated one-horse shops about the fit, style and price. To come in and see our measure and garment is carefully made every detail of workmanship. The clothes we make will be

ADVERTISING.
THE DAILY COURIER has double the circulation of any other daily newspaper in Fayette county or the Connelldale area and it is better distributed for the general advertiser. It is the only paper that presents each week sworn statements of circulation. THE WEEKLY COURIER is the organ of the Connelldale coke trade and one of the newest weeklies in Fayette county.

WEDNESDAY EVE., APRIL 1, 1908.

LIGHT AND FACTS AND INSINUATIONS.

The Official Organ of the Aquaphobists could resist the temptations of the bile with which its editor is afflicted, but the animus of its attacks upon The Courier is pretty well understood by the Connelldale public. The whole matter would be utterly ridiculous were it not for the evident maliciousness of these insinuations. To begin with, there would have been nothing morally or legally wrong in the transaction had the water company sold the Young Water Company stockholders of the Young Water Company stock actually sold out to the Connelldale Water Company for \$25,000 and pocketed the handsome profit of \$24,000; but as a matter of fact they merely got back their \$500 without interest and surrendered their charter upon the promise of the Connelldale Water Company to supply South Connelldale with water. The News admits that "the men composing the Young Water Company," meaning the original stockholders, "are citizens of high standing," and it believes that they are "innocent of any deceptive 'flogging.'" Just what it means by "deceptive flogging" it does not explain.

But it apparently makes an exception of the Secretary and Treasurer, whom it says hasn't explained enough, though as a matter of fact we have repeatedly told all we know about the history of the Young Water Company in these columns. In the Chamber of Commerce and privately some weeks ago to Editor North himself. He knows all we know about it, and so does anybody else who reads The Courier.

But The News insists that "a cloud is hovering over the deal," and that the cloud has not yet been cleared; and, finally, that we know more about the Young Water Company transaction than we have told, because, it adds triumphantly, we were Secretary and Treasurer of that company and "should know all about the financial details of that corporation."

We were Secretary and Treasurer of the Young Water Company, and we know all its financial details up to and including the 27th day of September, 1897, at which time our relation with the company was severed, and we parted, and has so remained to the present time, with the very fair prospect of so continuing forever. The \$25,000 sale of the company's franchise took place after this severance of our relations with the Young Water Company, and has been entirely unknown to us until it was brought to our attention in the discussion of the water question, nor could we be expected to know anything about the affairs of the company after our connection with it had terminated.

The deed conveying the Young Water Company's franchise to the Connelldale Water Company is signed by J. H. Purdy, President, and J. H. Purdy is the General Manager of the American Water Works & Guaranty Company, the holding corporation of the Connelldale Water Company. We do not profess to be a Sherlock Holmes, but to our mind the explanation of the transaction is quite simple. It seems evident to us that the purchasers of the Young Water Company's franchise, after holding it for three days, decided it was worth \$24,500 more than they paid for it, and at that price sold it to the Connelldale Water Company, which company seems to have agreed that this was a correct estimate of its actual value. The wonderful unanimity of opinion about the matter may possibly be explained in the fact that the selling and the buying interests were practically the same.

The saddest feature of us about the transaction is that the representatives of the Connelldale Water Company who negotiated the purchase of the Young Water Company's stock from the original holders did not discover their subsequent loss of its value to us and buy from us on that basis.

This office and see some documentary evidence of the famous Young Water deal which we still have in our possession and which we think will restore its usually happy frame of mind.

The Courier is a solid paper to-day. We are able in this manner to give all the news and accommodate most of the demands for advertising space; but, we regret to say, not all of them. It is not hard to see which is the "popular paper" of Connelldale.

The Courier doesn't carry any dead advertisements, neither does it have one rate for one man and another rate for his neighbor.

The poles and the wires are gradually coming down and going under.

Wait till Robbie rolls the clouds by and there will be light.

The News says the communication of President Wallace of the Chamber of Commerce was turned over to the editors of both Connelldale papers "with a very short time intervening."

The very short time was the difference between 6 o'clock and noon. The News was so late in printing its communication of President Wallace's letter that it utterly failed to print the answer. The newspaper that betrays such bias is not competent to charge anybody else with bias.

Common Scolds are said to be scarce in this country, but there are plenty of Uncommon Scolds running at large.

Some of the people around this neck of woods are not April Fools. They are just the plain, stupid, ordinary kind.

Colonel Huff doesn't believe in bill board advertising. He uses the newspapers. A candidate wise enough to do this can't be beaten. The billposters are usually left sticking at the post.

Colonel Huff says he didn't slip, but that Butler county pushed him.

The stock should be Fayette county's official emblem.

The News says the Dunbar people are not as good as the water company. The whole matter would be utterly ridiculous were it not for the evident maliciousness of these insinuations.

It was April Fool for the prisoner who had to wash the windows of the borough bastille this morning.

A globe-trotter tarried with us last night accepting the hospitality of the municipal hostelry. All the distinguished travelers stop at the Center.

The mumps and the measles are and April jokes.

The railroads want more time to sell their coal, and they ought to have it. This is a poor time to sell coal and even though it is the best in the country, as many persons in this section can testify.

The News cartoon yesterday looked like a Water Octopus, but was labeled as a joke on the weather.

Second Ward union patches ought to be insured.

A Wise Candidate.

Uniontown Standard: Squire A. O. Bixler has declined to race over the Democratic track by himself for Prothonotary, rather than be jeered in the free-for-all race for Commissioner, and he withdrew from the race. By moving "Abe" will have the pleasure of being a candidate all summer, whereas his pleasure might have been cut off in the spring time if he had not put aside his ambition to be Commissioner. He probably doesn't hurt any worse to be beaten for Prothonotary in November than to be beaten for Commissioner.

I. X. I. CLUB HOLD BIG DANCE.

Annual Hop of the Club in
Armory Hall Last Night
a Big Success.

NEW FLOOR MUCH ENJOYED.

Girls Wore Pretty Ball Dresses and
All the Appointments Were on a
Scale of Former Annual Gatherings
of the Club.

The annual hop of the I. X. I. Club, one of the prominent social organizations of the town, was held in the Armory Hall on the South Side last night. The affair was the Armory's christening, and it could not have had a baptism more pleasant.

The big building had been gotten into the form for the dance, and all the guests were loud in their praise of the great smooth floor, which will of course improve with age. The crowd was rather a large one, but the dancers were at no time hampered in the waltzes and two-steps. The floor will accommodate 300 couples, but last night a portion of this space was taken up by eight tables, at which the guests who did not wish to dance played euchre, and five hundred. These tables were kept in play during the entire evening.

The decorations were not elaborate, but tasteful. The eight members of Kiefer's orchestra were screened off from the dancers in a balcony, which was banked solidly with palms and flowers. The lighting was perfect.

Refreshments were served throughout the evening, and the loss and biscuits were devoured as only girls at a dance can devour them. The ladies were of course the only feature of the dance worthy of mention, and many of them were wearing new gowns of exquisite style and beauty. White was the predominant color, but the new shades were also well represented, especially in the dresses of the married.

The first strains of the orchestra were heard about 9 o'clock, and it was nearing 3 in the morning when the guests broke up what had been a delightful evening.

The following were the out of town guests: H. T. Lattimer, Dawson; Miss Stella Ogilvie, Vanderbilt; H. B. Morrow, Pittsburg; Miss Agnes Morrison, Miss Mary Hill, Miss Rosalie Whaley, E. S. Porter, Dawson; Miss Mary Mong, Miss Josephine May, Bee, Mendville, Pa.; Mr. and Mrs. D. R. Purinton, Uniontown; W. R. Kimball, Dunbar; J. L. Townsend, Scottsdale; Mr. and Mrs. M. Heckinger, Jr., Dawson; A. H. Murrie, Morgantown, W. Va.; Miss May Moore, Getz, O.; Mr. and Mrs. J. S. Laughrey, Dawson; D. F. McKlancy and Mr. and Mrs. Harry McKlancy, and Dr. J. J. Junk, Dunbar; Carl L. Frobel, Uniontown.

Good Things That Are Claimed for
Coming Shows in Conneltsville.

The latest of Mr. Herbert's comic operas, "The Red Mill," which will be presented at the Soloson Theatre on April 1th by Charles Dillingham's company, has been considered his greatest popular hit. It was produced at the Knickerbocker Theatre, New York City, last season, and so great was the demand to see it that seats were placed on sale for the entire season, so as to try to stop the traffic of the speculators.

The book and lyrics of "The Red Mill" are by Henry Blossom. Holland is the country selected by the authors for the scenes and the actions of the story, which readily lends itself to picturesque scenery, quaint costumes and the peculiar characteristics of the country, these being relieved by the introduction of English, French and American tourists.

The story tells of two young Americans, whose ideas of financing are so limited that they find themselves in many tight and amusing situations, even to rescuing an imprisoned girl in a mill and carrying her safely to earth by means of the revolving fans, an effect so startling as to be melodramatic. The cast includes 60 people, including a chorus of 50.

Amelia Bingham in "The Climbers," in which she has scored the greatest hit of her entire career, will be the attraction at the Soloson Theatre soon. "The Climbers" is in four acts, and never in Miss Bingham's prior productions, sumptuous and magnificent as they have been, has she exhibited more beautiful stage pictures. The second act is universally pronounced to be the most gorgeous and expensive scene shown in any theatre this season.

Miss Bingham's present company, as has always been the case in her productions of the past, is of the very highest standard. Her leading man, Byron Douglas, is a worthy successor to her other leading men of the past, Frank Worthing, Robert Edson and Wilton Lackaye. Orders for seats are now being taken at the box office of the theatre.

FLOUR BIN

You cannot get the Hoosier's special features in any other cabinet no matter how much you pay. Special features are essential to the saving of time and work in the kitchen daily routine. Without them the cabinet is a mere collection of bins and drawers—not a complete labor-saving device.

FLOUR BIN—The flour is put in at the top, passes through the entire bin and is taken out thoroughly sifted at the bottom, thus no moldy flour can accumulate. The bin is self-cleaning, made of metal and white wood.

SPICE CABINET—The cabinet for spices contains six air tight cans, highly finished and labeled Ginger, Cloves, Cream of Tartar, Allspice, Baking Powder and Cinnamon. A neat rack holds them in place on the left hand door.

WANT LIST—Attached to the front door is a handy Want List covering everything that can possibly be needed in the kitchen, alphabetically arranged with tacks set opposite names on the list—a simple and effective system for keeping stock in the kitchen.

There are many more labor-saving features that only the Hoosier Kitchen Cabinet possesses, such as Metal Meal Drawers, Pan Racks, Sliding Shelves, etc. Any one who has ever used an ordinary kitchen cabinet knows how difficult and annoying it is to try to get articles out of the back part of the lower cupboard. The Hoosier sliding shelves overcome this trouble. These shelves slide in and out the same as drawers and the contents of the cupboard can be brought to the front within easy reach by drawing out the shelf.

SUGAR BIN

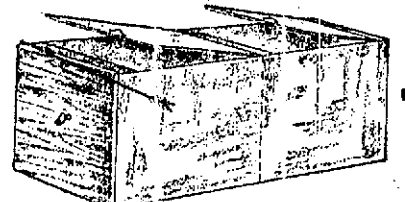

SUGAR BIN

The sugar bin is the most cleverly devised bin in the Hoosier. The sugar is put in at the top and works down through the open space at the bottom, where it is taken out by means of a scoop which is furnished with the cabinet. The bulk of the sugar is held in the upper part of the bin, as the opening is only large enough to allow a small quantity to run in the lower part. When a scoop full is taken out the same quantity drops down. This bin is attached to the large right hand door in the top of the cabinet.

BREAD AND CAKE BOX—The place for keeping bread fresh and moist is one of the best features of the Hoosier. The Hoosier Bread Box takes the place of the lower drawer. It is 9x11x24 inches made of metal and has close fitting lids. One end is partitioned off for cake.

RECIPE CABINET—This outfit consists of 100 recipe cards, ten guide cards, labeled bread, cake, and desserts. Eggs, fish, meats, miscellaneous, salads, sauces, soups, vegetable. The cards are in a neat rack attached to the same door as the spice cans. This cabinet makes it possible to preserve many recipes that heretofore it has been impossible to keep track of—when wanted the proper recipes can be found instantly.

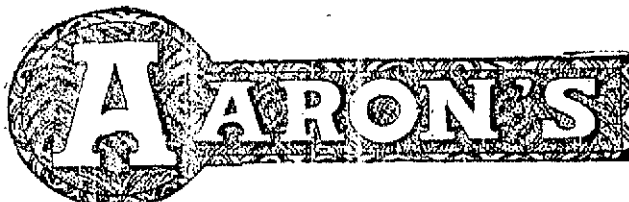

ALUMINOID TOP—This extension top can be drawn out or extended beyond the front of the cabinet over 11 inches, adding more than one-third the working space.

NOT ONLY THE INDIGESTION BUT ALL OTHER STOMACH MISERIES GO.

Each 22-Grain Triangulo Will Digest
3,000 Grains of Food and
Cure Stomach Trouble Five
Minutes After.

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous digestive virtue contained in one 22-grain Triangulo of Diapopsin. This harmless preparation is eaten and tastes like candy, though one Triangulo will digest a heavy meal without the slightest pain or discomfort and relieve the sorest, acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula plainly printed on each 50 cent case of Pape's Diapopsin, then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the

stomach, belching of gas and eructations of undigested food, water brash, nausea, heartburn, flatulency and many other bad symptoms; and, besides you will not need laxatives to keep your stomach and intestines clean and fresh.

If your stomach is sour or your food doesn't digest, and your meals don't tempt you, why not get a 50 cent case today and make life worth living? Absolute relief from stomach misery and perfect digestion of anything you eat is sure to follow for five minutes after, and besides one case is often sufficient to cure a whole family of such trouble.

Surely, a harmless, inexpensive preparation like Diapopsin, which will always, either at anytime or during the night, relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

Shoes for the Boy

It may be cheaper to buy shoes for 98c, but it isn't cheaper for the boy that has to wear them. He is the one that has to suffer. Isn't it better to buy more for shoes that are right than to pay for the doctoring of deformed feet?

Our \$2 boys' shoes are made along the same lines as our men's shoes. Another thing, our boys' shoes appear in just as many styles and leathers—as of course, the boy is fussy about the style.

We want parents to accustom the young fellows to look to this store for good shoes, then when he is older he will come of his own accord.

NEWS OF SCOTSDALE.

William Campbell Forgets to Pay Bill Till Suit Is Entered Against Him.

MILL TOWN PERSONAL NOTES.

Comers and Goers and Bits of the Fly-ing News Supplied by Our Special Correspondent for Westmoreland County Readers.

SCOTSDALE, April 11.—Two cases were disposed of yesterday before Judge Starnes. The one case of James Campbell for a bill of long standing against William Campbell, who asserted that only through lapse of memory was the debt neglected and it was compromised by his promise to settle the bill. The other case was brought by H. A. Mentzer against Thomas Bicher for \$250 said to have been rent for a farm which, through some misunderstanding, the latter refused to pay. After much argument, Bicher settled on condition of Mentzer paying half the costs.

The Westmoreland Underwriters' Association will meet in the office of John Laughey near Prison night for the purpose of presenting new rates for this vicinity and other business.

Holmes Davis, a coke operator of Brownsville, is stopping at the Scott-dale House.

Lewis Truxall is getting signatures to a petition which he intends presenting next Monday night before Council for the purpose of restraining the construction of a blacksmith shop near his dwelling on Market street. Mr. Truxall declares that the construction of the shop would do him violent injury and would be a menace to the community, being only three feet from his door.

If the number of nickelodeons is to be an index of the times Scottdale cannot be relegated to the rear, as the acquisition of a new one is in sight, the electric wiring and other necessary fixtures having been already installed.

A bright new fire escape is to grace the Elder building on Pittsburg street the same being nearly completed at this writing. There are a few who will scarcely concede this to be absolutely essential but the experience of the past teaches the wisdom of being on the safe side.

Ex-Sheriff Brock and Mrs. E. H. Brock of Connelville were visitors at the Everson House yesterday. Mr. Brock is President of the Labor Brewing Company and is heavily interested in the Everson House.

An unusually large crowd attended the public sale of Campbell's livery stable, including all the vehicles and harnesses and also his personal effects. The bidding was spirited and the price realized was according to large consideration of the condition of affairs.

Notwithstanding the fact that today is April 1, you should not be deterred from reading The Courier. It never fabricates.

When Physicians Recommend a Corset

that corset compels our investigation. When our investigation proves that the corset recommended by physicians, possesses, in addition to its wonderful health features, the best style we have ever seen in a corset, we cannot withhold our admiration.

They Lace in Front

The Gossard Corsets are the first to consider the health of women. They are recommended by all Physicians who investigate them.

When all corsets have been so generally condemned by the medical profession, the marvel is how health and style can be so combined in one corset as to completely woo physicians everywhere until they now not only give it unqualified approval, but actually prescribe it for the correction of innumerable ills, some of which are induced by ill-fitting lace in the back corsets.

They Lace in Front

The Gossard Corsets are actually prescribed for his patients by the best known Surgeon in America.

They Lace in Front
L'IRRESISTIBLE
AND THE
Gossard

CORSETS
They Lace in Front

are the messengers of progress in the corset world.
By their new principle of

LACING IN FRONT

instead of in the back, they rank ahead of all other corsets as electricity outshines the tallow dip. They are the to-day, the to-morrow, and the immediate future of corsetry, and as such command our attention, and leads us to invite our patrons to the inspection and careful study of these marvelous garments.

Written description cannot convey the idea of the style features, the excellent fabric, or the beauty of manufacture of these corsets, and we repeat our invitation, that justice to yourself, who desire health, style and comfort from your corset, and justice to the manufacturers who have created this wonderful garment, requires your visit and inspection.

Mrs. Gleason, by her tact, her graciousness and skill, has captivated the ladies of our city who have been fortunate in securing her service for a fitting. Our hope is that no woman in Connelville who is interested in the improvement of her figure, will miss the pleasure of an interview with this lady.

Strength and Service.

The latest financial statement of this bank shows a capital and surplus of \$300,000—and resources of more than \$2,000,000—These figures are proof of two important facts—that the bank is very strong financially and that it must give its patrons good service to make such figures possible.

Absolute safety, good service and every reasonable accommodation is the basis on which your account is invited.
